

| | Mark Allocation | Judging Criteria |
|--|-----------------|--|
| Overall Presentation & Abstract | 10 | Layout, writing style, fluency of discussions, etc. |
| Research Questions/Objectives and Descriptive Statistics | 20 | Insightful and innovative thought. Thorough descriptive analysis undertaken. |
| Literature Review | 20 | Shows a clear awareness of related research that has/is been undertaken. Ability to correctly associate research questions/objectives and initial analysis with current/related literature. |
| Methodology | 20 | Shows a clear understanding of the methods and processes been applied. Able to correctly apply current/related research methods and processes. |
| Results and Conclusion | 20 | Highly accurate, analytical and well argued. Strong ability to interpret and discuss results found in the study and literature correctly. |
| Citations and Bibliography | 10 | Sources and citations are correctly referenced. |
| Total Mark Allocation | (100) | |
